

# MALDIVES

- MALE TO BAA -

4 - 11  
September 2022  
(7 nights)

1,990 USD\*  
per person

## THE EXPEDITION

This expedition has been specifically timed to coincide with the most productive monsoon winds and lunar currents, which strongly influence the movements and feeding habits of reef manta rays. The aim of this trip is to use the knowledge of [Manta Trust](#) experts to find these feeding aggregations and allow the guests to experience the wonder of immersing yourself amongst a feeding frenzy of these gentle giants.

[Baa Atoll](#) is off the main route for the majority of dive liveaboard and we will venture into this more northern atoll specifically to seek out the feeding mantas of [Hanifaru Bay](#) and hopefully a few whale sharks as well. To see several of the world's largest fish feeding amongst dozens of the world's largest rays is something most people will never forget.

Just north of Baa we will probably venture into [Raa Atoll](#), a region regularly visited by mantas and hosting some stunning dive sites. Vertical walls covered in soft corals, gardens of anemones and mantas gliding above our heads are only a few of the marvels of this atoll!

On our way back to Malé we will finally visit [Male Atoll](#) where diving will offer an incredible diversity, from shark encounters, to stunning soft coral walls to, finally, more gliding mantas, allowing us to end the trip on a high note!

While the weather in the Maldives at this time of the year is likely to be more changeable, these monsoonal conditions are [exactly what create the planktonic blooms](#) upon which the mantas and whale sharks aggregate to feed. Furthermore, we can never guarantee these natural events, but we have put together a trip, which maximises our chances of being in the right place at the right time, guided by the expertise of a Manta Trust scientist!

**ON-BOARD MANTA EXPERT**

As on all Manta Expeditions, a Manta Trust scientist will be onboard for its entire duration, offering everyone the opportunity to interact and learn from a leading manta expert.

The presence of a Manta Trust scientist onboard will enhance your experience in a number of ways:

- motivate and inspire you, by learning about the marine ecosystems you will be exploring
- gain access to an accumulated wealth of knowledge and expertise, providing you the opportunity to become actively involved in cutting-edge scientific research.
- offer you an educational and much more rewarding experience by making your underwater encounters more personal, and by involving you first-hand in marine research and conservation.
- be environmentally aware and proactive and become an active member of an initiative which stands to have strong implications for the on-going persistence for manta rays worldwide.

Collectively the Manta Trust and Manta Expeditions teams possess over two decades of experience working in the Maldives, studying its manta population and marine life and have assembled a vast amount of knowledge and expertise, knowledge you will have access to on this expedition.

A core focus of the expeditions is not only to provide close encounters with manta rays but to enthuse and educate divers in marine conservation issues and the environment surrounding them. Through a series of activities and presentations on topics covering local marine species and habitats led by the Manta Trust expert, you are sure to leave with an increased awareness of the threats facing our oceans and, perhaps more importantly, how you can help.

Using the knowledge of the Manta Trust scientists you will gain a brand-new perspective to diving and experiencing the underwater world; by understanding what you see you will gain a better appreciation and love for the ocean and its creatures. Ultimately, with the guidance of the Manta Trust researcher you will have the chance to give something back to the ocean which we believe is fundamental considering how much we take from it!

**CITIZEN SCIENCE - GET INVOLVED!**

On this expedition, you'll have the opportunity to experience and participate in cuttingedge conservation research to protect one of the ocean's most majestic animals. Manta Trust scientists will be collecting photographic identification images of all mantas encountered throughout the expedition - a task that guests are welcome and encouraged to participate in. All new manta rays will be added to the database and guests will be invited to name these new mantas.

**THE MANTA TRUST**

A UK registered charity, the Trust's mission is to advance the worldwide conservation of manta rays and their habitat through robust science and research, by raising awareness and providing education, influence and action. The Manta Trust was formed in 2011 to co-ordinate global research and conservation efforts for these amazing animals, their close relatives and their habitat.

**Data Collection:** The Manta Trust has a number of research projects worldwide, incorporating population data, research on manta movements, and genetic analyses - to name a few - in order to better understand the general ecology of manta and mobula rays.

**THE BOAT | M/Y CONTE MAX | LUXURY & WELLBEING**

Back in 2004, the Maldives did not offer many boats that boasted the same comfort and standard for non-divers as the country's various island resorts. With the launch of the Conte Max that year, the concept of a cruise that combines the rejuvenating experience of diving in the Maldives, with the wellbeing of an on-board ayurvedic spa, was born.

Since its launch, the Conte Max has become one of the best-known and best-loved boats amongst those that regularly visit the Maldives. At 33m (108 ft) in length, she offers eight elegant and comfortable cabins, each with their own spacious en-suite bathroom and air-conditioning. Scuba diving excursions are delivered by a traditional Maldivian dhoni that accompanies the main vessel. If taking a break from the underwater world, the Conte Max offers three sundecks, a bar, two restaurants, onboard WiFi, and TV + CD/DVD player facilities, with a wide-collection of music and movies on offer to help you relax. And of course, there is the Massage Centre, with an onboard Indian masseur offering Ayurvedic treatments to help you unwind.

**BOOKING**

To reserve your place on this Maldives Manta Expedition, please send an email to [Niv Froman](mailto:Niv.Froman@mantaexpeditions.com) at [info@mantaexpeditions.com](mailto:info@mantaexpeditions.com)

Trip costs for this 7-nights expedition in full board accommodation and three dives / snorkelling excursions per day includes transfer Male airport/ vessel and return, drinking water, coffee and tea and GST tax. Free NITROX included!

\* Cost does not include Hanifaru park entry fee (25 USD per person), Green Tax (6 USD per person per day), Service Charge (10 USD per person per day) and Crew Tips to be paid onboard.
